

Basic Uses

- Most non-traffic bearing joints, including those where structural movement or stress is expected.
- Primerless application onto brick, concrete, stone, all metals, glass, treated and untreated wood, asphaltic materials, and vinyl.
- Where ultraviolet-stable material is required.
- Where a paintable sealant is required.
- As a trim sealant for metal components.

Composition and Materials

Geocel 2300 is based on a proprietary formulation of polymers designed to provide optimum flexibility, adhesion, weather resistance and life expectancy. Because of the inherent flexibility of this material blend, the sealant does not contain plasticizers (added to many sealants to promote flexibility) which tend to migrate out of other sealants, causing hardening and shortening their useful life. Due to the mild solvent blend contained in the sealant, Geocel 2300 is not a flammable liquid according to NFPA liquid guidelines. Its inherent weather and ultraviolet resistance, combined with its lasting flexibility, provide a life expectancy exceeding 50 years. Its clear formulation is literally clear as glass from moment of application.

Grade

Gun Grade Consistency

Primers

Not required on most surfaces. If primerless adhesion to a particular substrate is in question, a test application is recommended. Contact Geocel's Technical Service Department for further information.

Packaging

11 fl. oz. cartridge, 29 fl. oz. cartridge, 5 gallon pail, 55 gallon drum.

Colors

White, Clear, Almond, Gray, Black, Driftwood, Tan, Earthtone, Bronze, Cedar and Brown. Additional colors may be available on request.

PRODUCT DESCRIPTION

Geocel 2300 Tripolymer Sealant is a single component, high-performance elastomeric sealant for use in a wide variety of roofing, window, door, siding, trim, architectural metal, automotive, manufacturing and general construction applications. The product has the following unique properties:

- Will not crack
- Asphalt compatible
- Exceptional elongation and flexibility
- Excellent adhesion to all building surfaces, even when damp
- Superior ultraviolet resistance
- Resealable, may be applied over itself
- Paintable
- No dirt pickup
- Easily applied, non-stringing formulation
- Available in crystal clear and colors
- Tools and cleans up easily
- Mildew Proof
